SOCCER SPORTING ASSOCIATION BABAR PROJECT

The Sporting Association Babar is a sports organization that participates in the social life of the district Roquetas Verdun-energizing teams playing in various soccer categories. Social action emphasizes the relationship among children and sport as a tool for education and socializing. This aspect is crucial considering the special traits of the population that it serves: children and young people with social and educational gaps that are at social risk.

Indoor soccer and competition are an alternative means for training, and building personal relationships and bonds, a way of socializing for children and youth in the neighborhood.

OPEN CENTRE

It is a Day Care Center for children between 4 and 16 from vulnerable families or at social risk. It offers a comprehensive program for the child to strengthen its skills and growth, with schooling, leisure education, sports, workshops, values... in order to offer out of school care and try to compensate for adversity factors in their environment. In this educational context, children play, experience and learn to be the protagonists of their playground.

PLAY CENTRE "PLAY AND READ"

Project aimed at children between 4 and 7. The Play Centre is a supervised play space with materials and incentives to develop imagination and creativity and promote harmony among children. At the same time it aims at motivating children to read through a program of activities based on children books.

PLAY CENTRE: LITTLE CHILDREN IN ROQUETES

Accompanied playground for children between 4 and 9 where there are activities and actions of support, stimulation and learning for children at social risk in the neighborhood of Roquetes.

FOLLOW UP FOR TEENS AND YOUTH

We offer support and guidance to teens and youth in the neighborhood consisting of various educational and recreational activities.

FAMILIES MENTORING

As part of the Microcredit Group we are adapting an experience based on Grameen Bank philosophy to the Verdun neighborhood reality, to develop efficient financial services and fight social and economic exclusion.

INTEGRATION AND TRAINING PROGRAM

The project develops training initiatives and proposals for young people in situations of social vulnerability and low employability. These actions are focused on learning processes that enable them for future employment and are from a professional project support around each young person.

Improving the employability and job placement occurs along a route that includes several training:

- Training workshop on handling and distribution processes.
- Training workshop on textiles. "amARTE" products
- Socio-occupational skills training
- Training and support in General Education and Secondary Education (SE)

POINT OMNIA

Project created to ensure access to communication technologies to the populations of districts with lower incomes.

The project focuses on three main lines: the use of the community room technology (both individually and by associations), job placement and training.
